## We are BioScience International.

We are leaders in understanding healing and regenerating health.

We are experts in the field of bioavailability and have recently invented several delivery mechanisms that provide unparalleled absorption.

We specialize in restoring the electromagnetism of the body through the tangible science of using oils, minerals, herbs and live active proteins to restore the body to its fullest potential.

We have created a synergistic line designed to work on conditions that modern science -- to this point -- has had no comprehensive solutions for:

- STD's
- Auto Immune Conditions
- MRSA
- Chronic inflammation
- Neurological disorders
- And much more...

## Leaders in Bio-Absorption:

*The supplements you take are only as powerful as your body's ability to absorb them.*

Our proprietary technology enables us to understand the dynamic interaction of herbs, minerals and proteins in your body for targeted, maximum absorption. We are the first to have encapsulated herbs, oils, and live active enzymes in a softgel.

## Bioscience Advantages:

### Oil, Electricity, Vitality

- Superior absorption with Lyposomal Delivery (Alcohol, Oil, Herbs) in a Softgel.
- Causal Nutrition – Awakening the body's wisdom directly.
- Targeting electro-chemical messengering systems.
- Full spectrum support.

## Liver & Brain First:

Many health practitioners have forgotten the basic science that the liver MUST be functioning well for the Immune System to be able to stand strong. Therefore, unknowingly, they've adopted a pattern of prescribing numerous supplements to patients and clients without addressing the liver mechanism first. Many of these products are single ingredients, claimed to be the "missing link," "super potency," single herb, vitamin or mineral that your body 'needs' and is lacking.

The problem with taking isolated compounds is that the liver does not thrive on one compound alone, nor is its absorption mechanism geared toward single compounds. The liver relies on an integral balance for both proper absorption and restoration in order to produce all the chemicals your body needs to function healthily.

If your body is deficient in a compound or overproducing inflammation, then you are surely having a liver problem.

The liver is the master cleaner of the blood and much more. If your filter is dirty then and only then will you have inflammation. Inflammation and poor circulation are the fundamental cause of all sickness.

A poor functioning brain is a direct reflection of a poor functioning liver. The brain relies directly on the nutrients and food provided by the filtration system of the liver.

By truly addressing the multi-layered repair of the liver, the brain will then begin to automatically reward you by functioning properly.

## Preventative and Healing

Our lines are helpful for both alleviating chronic conditions as well as improving overall levels of wellness.

We are presenting both new approaches to healing as well as formulas that solidify the science of our approaches. Our formulas are a fusion of eastern and western medicine.

Our formulations are based on a comprehensive perspective of what is causing conditions in our bodies that have been resistant to healing for generations. These factors are combined distortions that effect the fundamental electromagnetic, chemical life force innate to the body. We address these factors directly, which enable us to bring you solutions that have not existed before.

## A NATURAL DETOX AND REPLENISHER

Liver Strength is for bathing the cells with electrolytes and stripping off old particles from the night before that were left over from die off reactions from the natural detoxification processing centers of the body, especially the liver.

Liver Strength is for repairs and detoxification that naturally occur in the morning from the overnight programming of the body's mechanism to prepare for daily functioning.

You can think of it as a processing portal placed into the body for liver detoxification and support throughout the day.

If your heat is maintained throughout the night, this formula will function properly. It will ensure proper utilization by the body's mechanism that prepares for multiple functions and activities throughout the day. If, however, your body has lost its heat throughout the night through restlessness, illness, digestive issues, or hallucinatory patterns in dreams, this formula is best taken in the afternoon when the body has had time to calm the liver from the overnight heat expulsion.

## BENEFITS OF LIVER STRENGTH

Liver Strength is designed to bring you to the next level of health and wellness in order to better perform all basic functions each day. It will help you understand that your unhealthy liver patterns can cause you great mental distress. Its purpose is to calm your liver patterns to the point of repairing the signaling pathways to the neurons that control mental patterns. It can help you keep your mind clear so that you may function at a higher rate of efficiency. It is helpful to think of Liver Strength as a digestive aid for the mind, while the body uses it as a processing detoxification protocol. Most importantly, it helps strengthen the liver's connection to clearing the blood for minerals and electrolytes so that they may travel properly throughout the pathways and veins.

## LIVER STRENGTH MAY BE BENEFICIAL FOR:

- Repairing the liver's natural detoxification mechanism\*
- Enhancing electrolyte, mineral, and enzyme function\*
- Raising energy levels in a balanced way\*
- Calming agitated mental stress patterns\*
- Alleviating chronic fatigue and arthritis\*

## FERMENTED GREENS, PROBIOTIC SPORES, LIVE ACTIVE PROTEINS

Unlike traditional fish oils that are flooding the market, Ultimate Fish Blend is a live, electromagnetic organism designed to interact precisely with your body's chemistry. It is fish oil in a form that is easily absorbed. It is balanced oil configured with just the right ratio of interactive electrolytes and fermented, live active-proteins that the body needs to efficiently absorb the oils. Taking a regular fish oil loaded with high amounts of EPA or DHA, which has no impact on the body's electrical system, does not make sense. In the long run, this can cause congestion and other adverse effects. For a nutrient to be effective, it must be absorbed properly.

## A FISH OIL LIKE NO OTHER

Ultimate Fish Blend offers you a high level of conductivity and bioavailability that will allow your system to absorb the rich diversity of oils we provide.

Our formula is designed to provide lubrication to the joints and finer capillaries for optimal blood delivery of nutrients.

You will achieve the healthy benefits of a true OMEGA BALANCE.\*

## ULTIMATE FISH BLEND

Provides you with both the proper ratio and the necessary availability system for ultimate wellness.

# THE SCIENCE OF SUPPLEMENT ABSORPTION

For the body to recognize and utilize a supplement or nutrient, it needs to be able to absorb and process the incoming nutrient or stimuli.

## THE BODY, ELECTROMAGNETISM AND OIL

The body is, fundamentally, an electromagnetic organism; therefore, good health relies on proper electrical conductivity, or circulation. Poor circulation or conductivity in any part of the body will result in congestion or illness. In cases of cancer, diabetes, erectile dysfunction, arthritis, menstrual cramps, and autism: there is a circulatory or electrical problem at the source. Strong, vital circulation is balance between hot and cold, tight and loose, heavy and light. These different relationships are governed by the electrical flow, the minerals, and the nutrients that exchange and interact throughout the body and its surrounding atmosphere. For the human body to be at its healthiest, it must have clear and open pathways between what it absorbs or takes in and what it processes and eliminates.

## CLOGGING THE PIPES

Failure to understand this dynamic will result in more congestion and poor circulation. The body can only utilize what it knows. A simple example would be going on a detox regimen to clean out the liver. This may appear to create a benefit for a short period of time; however, the very reason the liver is compromised is because its minerals, amino acids, and enzymes are depleted. Detoxing without understanding how to re-mineralize the body properly will often strip away more of the needed remaining minerals from the liver. This process never allows the liver to regain its proper strength.

Another grievous error is isolating one compound, thinking that overdosing with the single compound or multiple single compounds will bring the body back to health. We have seen this with many “Super Hero” ingredients, vitamins, or minerals that become “THE ONE YOU NEED.” In truth, a nutrient is deficient in your body because the entire system is not functioning properly. Utilizing one or multiple single compounds is addressing the EFFECT rather than the CAUSE of the problem. Ultimate Fish Blend and all products from Bioscience International are carefully created with a deep understanding of this dynamic. We are working with an understanding of what causes proper health while NOT trying to cure or push out a disease. Diseases exist because the body’s terrain and circulation allow them to stay there. Pathogens and viruses will be drawn to a body based on the body’s electromagnetic weaknesses as either a

host or deterrent for that organism. If you truly desire to bring your body to its optimal state, the electrical connection has to be addressed.

## MISTAKES IN FISH OIL SCIENCE

Fish oils have become extremely popular and can be highly beneficial for your health because of their dense and rich minerals, fats, and amino acids. An important fact, however, is completely overlooked: OILS ARE A CONDUCTOR. They conduct heat and electricity. They act as conduits for minerals and nutrients, encapsulate them, and can use the body's heat to create electrical connections through their INSULATING NATURE.

## DIFFERENT OILS FUNCTION LIKE DIFFERENT UNIVERSES IN THE BODY

Supplementing with more oil or high amounts of DHA and EPA does not guarantee health or healing. It is not how much of an oil or the amount of one isolated compound, but the form the oil is in and its bioavailability.

## **TAKING FISH OIL WITHOUT THE PROPER MINERALS AND ACTIVE CONSTITUENTS IS LIKE TRYING TO LIGHT A FIRE WITHOUT A SPARK.**

Oil that enters a body that is already depleted in heat and vitality and lacks the proper minerals for the body to use as conductors can be trouble. After a prolonged period of time, the oil may lay rancid in the tissue because the body does not have the minerals or conductivity to heat it up and break it down. It may be useful for a short period of time, providing the body with a boost of dense nutrients. After a while, the oil will backfire and begin to cause stagnation and congestion.

## **ULTIMATE FISH BLEND WORKS ON A COMPLETELY DIFFERENT LEVEL:**

We use precise combinations of oils for different health building effects: **Shark liver oil (squalene)** is known for its extraordinary deep healing and regeneration qualities. Sharks are known for their powerful electromagnetic senses and powerful liver-healing abilities. **Astaxanthin** is an antioxidant, blood builder, and anti-inflammatory. **Salmon oil** is an antioxidant that is high in vitamins A, D, E and many other nutrients.

Within these oils we've also synthesized **live interactive fermented minerals** and **probiotic spores**. These minerals and probiotics are activated within your body and delivered by the oils to the areas where the body utilizes their electrical charge. Not only does Ultimate Fish Blend deliver the proper levels of EPA and DHA in the exact electromagnetic form needed, it also provides a unique blend of oils to cover different aspects of the body's chemical regenerating needs. In this way, we can assure you that you are getting the best-quality supplement for your wellness needs.\*

# Unleash the Power of Your Brain

**BRAIN  
POWER**

## EXPERIENCE THE POWER OF A HEALTHY BRAIN

A healthy functioning brain is electrically balanced. When brain electrical signaling pathways are clear and open in connection to your liver's messaging system, the brain and body are in their optimal functioning condition. Strong and healthy signaling pathways help your body and brain run more efficiently, with less stress, to produce sharp, alert and calm function.\*

Brain Power's interactive electrolytes, oils and herbs may clean and activate blocked pathways between the brain and liver to create an optimal condition for the body to receive what it needs for repair.\*

## ADVANTAGES

- Oil delivery for optimal absorption, targeting restoration of brain communication.\*
- Designed to assist in balance of brain mineralization function.\*
- Designed to restore nervous system balance.\*

## Supplement Facts

## AN ELECTROMAGNETIC APPROACH TO BRAIN HEALTH

Brain Power is designed to invite the cells to react to the incoming nutrients in a way that is most efficient for the nerve impulses inside the brain tissue.\*

This process can enliven the brain matrix to give the body its reciprocal constituents for repairing the brain synapses. It may also boost the function of the synaptic connections.\*

Brain Power can improve the body's ability to understand the brain's signaling complex patterns better.\*

Brain Power does not use the body's reserves to call upon the old deep tissue patterning for repair underneath the layers inside the bones, where the mineral complexes lie. Instead, it promotes repair from the nerve impulses by sending back the information from the minerals involved in the electrical activity caused by the supplement.\*

## ORGANIZATION OF MINERAL FORMATIONS

You will be taking something that allows your body to use its mineral complex supply differently and more efficiently. Consistent doses of Brain Power are needed in order to re-train the body to use the electrical activity properly to not rob your bones and minerals from deeper layers of tissues around the bones.\*

## BLOOD AND BODY HEALTH

The blood can be enhanced by the electrical activity. Eventually, the improvement will begin to repair the body in different ways. This is due to the reordering of the signaling of electrical pathways that provide the exact amount of necessary nutrients and minerals. These nutrients are sent out to different parts of the body matrix that control how the body reads what it needs for repairs. This action causes the brain activity to reevaluate itself, and become more efficient at knowing what it needs. Your body will better utilize individual mineral complexes, ensuring they are received in each part of the brain and the nerves' electrical signaling pathways.\*

## BRAIN POWER STANDS ALONE

You cannot get these benefits from any other supplement because they are not designed to integrate the communication between the liver and the brain. The liver will take the supplements in, but will not perfect the signaling of the electrical pathways in the nerve impulses, nor will it improve the blood's electromagnetic system that relates to these electrical pathways. With Brain Power, the nerve tissue may also change and reform itself when taken in sequence with the liver enhancement formulas.\*

## Brain Power May Be Beneficial For:

- Promoting calm, alert, and focused states\*
- Balancing electrical brain signals\*
- Supporting mood and memory\*
- Combating dementia, ADHD, and Alzheimer's\*
- Easing addictive patterns\*
- Preventing stress and "burn out"\*
- Balancing Adrenal Fatigue and Fibromyalgia\*
- Alleviating sleep disorders\*
- Repairing the nervous system\*
